

American Express® Corporate Purchasing Solutions

## Corporate Account Reconciliation Online and automated for easy use

Oversee purchases made in dozens of countries without changing time zones

Now you can easily integrate purchasing data into your company's back-end financial systems with **American Express Corporate Account Reconciliation**. This web-based application allows you to easily update accounting information and approve purchasing transactions made anywhere in the world, as well as create customised reports.

### Increases Efficiency

- Easily upload transactions to your company's financial systems
- Edit multiple transactions in one step with mass allocation functionality
- Reduce the need for manual reconciliation
- Send broadcast messages or personalised emails to end users

### Improves Accuracy

- Account holders are responsible for reconciling, validating, and reallocating their charges
- Managers can monitor and approve account-holder transactions
- Line-item detail or enhanced data will display when provided by suppliers

### Easily Implemented

- Automatically access worldwide data from anywhere—no software installation necessary
- Customised to meet the requirements of multiple back-end financial systems
- No downtime or extensive retraining typical of a major system change
- Experienced technical support available if ever needed

Getting greater control over spending is easy when you have all your data right at your fingertips. To get started with American Express Corporate Account Reconciliation, contact your **American Express Representative** or complete an **online enquiry form** today.
